

Left Alone

The Pigeon Detectives

Show me people you know
It don't impress me
They're gonna let you down

I hope there's some one in here
To undress me
So I can get some now

I don't wanna be left alone with you, tonight
I don't wanna be left alone with you, tonight

Escobar on Friday night
It was a right laugh
'Til your friends came out

Now you're acting big time
Carrying out your autograph
Do you know you've let us down?

I don't wanna be left alone with you, tonight
I don't wanna be left alone with you, tonight

Show me people you know
It don't impress me
They're gonna let you down

I hope there's some one in here
Willing to undress me
So I can get some now

I don't wanna be left alone with you, tonight
I don't wanna be left alone with you, tonight
I don't wanna be left alone with you, tonight
I don't wanna be left alone with you, tonight
