

Lose Control

The Pigeon Detectives

Oh baby, I know
That these feelings come and go
There's a devil inside of me and I need to let you know

Oh baby, I guess
That you're just like all the rest
Come along for the ride, get tired and then leave me in a mess

You love it when I lose control
You love it when I'm dancing on my own
You love it when I lose control
And when I'm dancing on my own

Still bringing me down
There's no reason for this sound
Close your eyes and give into me, please relieve me of this town

Oh baby, I know
That these feelings come and go
There's a devil inside of me and I need to let you know

You love it when I lose control
You love it when I'm dancing on my own
You love it when I lose control
You love it when I'm dancing on my own
You love it when I lose control
You love it when I'm dancing on my own
You love it when I lose control
And when I'm dancing on my own

You love it when I lose control
You love it when I'm dancing on my own
You love it when I lose control
You love it, you love it
You love it when I lose control
You love it when I'm dancing on my own
You love it when I lose control
And when I'm dancing on my own
