

Lost

The Pigeon Detectives

I can't seem to get this all out my head
Is it me, is it you, is it me now?
I can't seem to get this all out my head
Is it me, or is it you, is it me now?

You don't know what it's doing to me
You don't know what it's doing to me

But I was never lost, I just got out of here
So now you won't lay me down
No I was never lost, I just got out of here
So now you won't lay me down

Remember yesterday the streets were running red?
I lie down on the ground hearing noises
Well this city's just a place to rest my head
Sleep it off, coming down, hearing voices

And you don't know what it's doing to me
You don't know what it's doing to me

But I was never lost, I just got out of here
So now you won't lay me down
No I was never lost, I just got out of here
So now you won't lay me down

And you don't know what it's doing to me
You don't know what it's doing to me

But I was never lost, I just got out of here
So now you won't lay me down
No I was never lost, I just got out of here
So now you won't lay me down

Now I was never lost, I just got out of here
So now you won't lay me down
