

Munro

The Pigeon Detectives

See some shadow, dancing on the wall
Day by day, I've watched you lose it all
No more second guessing, someone else
Keep your hiding places to yourself
You know, I've been so lonely

Will I find you? I don't know
Always underneath Munro

Fractured from the moulder that I'm now
All those broken glances just for you
Overhead, see satellites falling down
Burning through the shadow on the ground
You know, I've been so lonely

Will I find you? I don't know
Always underneath Munro
Will I find you? I don't know
Always underneath Munro

Will I find you? I don't know
Always underneath Munro
Will I find you? I don't know
Always underneath Munro
