

## Stay with Me

### The Pigeon Detectives

When I saw you, I  
I waited for you, I  
I waited for you, and I  
I waited alone

What became of you  
I lost you at the back, I  
I thought you just lost track  
But, you never did show

Don't you wanna stay with me tonight?  
Don't you wanna be the one who can take me from how threadbare I've become  
Don't you wanna stay with me tonight?  
Don't you wanna be the one who can save me from how threadbare I've become

Monday morning, there  
Trawling for you, there  
Mauling for you, until  
No one remains

What became of you  
I lost you at the back, I  
I thought you just lost track  
But, you never did show

From the shadows someone  
Says to me

Don't you wanna stay with me tonight?  
Don't you wanna be the one who can take me from how threadbare I've become  
Don't you wanna stay with me tonight?  
Don't you wanna be the one who can take me from how threadbare I've become

When I saw you  
When I saw you  
When I saw you  
I waited the long way  
First they call you  
Then they hold you  
When I saw you  
Waiting alone again

Don't you wanna stay with me tonight?  
Don't you wanna be the one who can save me from how threadbare I've become  
Don't you wanna stay with me tonight?  
Don't you wanna be the one who can take me from how threadbare I've become

When I saw you, I  
I waited for you, I
