

What Can I Say?

The Pigeon Detectives

You say that your trying to change
But you go at it again at it again
What can I say
Sometimes you go out of your way
Sometimes

You say that your trying to change
But you at it again at it again
And now it seems the only way
To tell the night from day
Is you

You say you just give what you get
So I will try to forget try to forget
What did you say
Sometimes you go out of your way
Sometimes

You say you just give what you get so I will try and forget
Try and forget and maybe when we
Both come down then
We can work this out
Or not

You've got nothing I can get from my friends
I'm gonna take your enemies and make them pretend
That we don't get along with you and you've got nothing to hide
Take those felling keep them buried inside

You've got nothing I can get from my friends
I'm gonna take your enemies and make them pretend
That we don't get along with you and you've got nothing to hide
Take those felling keep them buried, buried inside

You say that your trying to change
But you go at it again at it again
What can I say,
Sometimes you go out of your way
Sometimes

You say that your trying to change
But you at it again at it again
And now it seems the only way
To tell the night from day
Is you.
