

All You Need To Know

The Pineapple Thief

So this is where I hurt,
You know I won't make it,
I won't make it

And every day it hurts,
You know I can't break it,
I wont break it

I never want to know,
What you mean to me, to me
And all I need to know, I need to know
That you are here with me, with me, with me

Consider where I hurt,
You know your love breaks me,
Your love breaks me,
And I won't make you hurt,
You know I can't break it,
I won't break it

I never want to know,
What you mean to me, to me
And all I need to know, I need to know
That you are here with me, with me, with me

I never want to know,
What you mean to me, to me,
And all I need to know, I need to know
That you are here with me, with me,
And all I need to know, I need to know,
That you are here with me, with me,
And all I need to know, I need to know,
That you are here with me, with me, with me.
