

Break It All

The Pineapple Thief

I don't know what to say to you
What version of yourself have you been listening to?

You will find
Your so-called love
You will find
Your so-called

You don't get to break it all
Then break the rest with someone else
You don't get to break it all
Then break the rest with someone else

Such a simple act got hold of you
What's the use of looking back and all that we've been through

You will find
Your so-called love
You will find
Your so-called

You don't get to break it all
Then break the rest with someone else
You don't get to break it all
Then break the rest with someone else

You don't get to break it all
Then break the rest with someone else
You don't get to break it all
Then break the rest with someone else

Where did you expect you will find the cure
What version of yourself will die before

You will find
Your so-called love
You will find
Your so-called
