

## Freefall

### The Pineapple Thief

Don't look down  
You're in freefall right now  
Feel the breeze  
Take the weight of your feet

You can't put up a fight  
When you're on your knees  
When you're losing your sight  
When you're lost in the headlights

Wave your arms  
It can do you no harm  
Look, look scared  
You're in freefall out there

You can't put up a fight  
When you're on your knees  
When you're losing your sight  
When you're lost in the headlights

So put up a fight  
Get off your knees  
I need you to fight  
So get out of the headlights
