

The Game

The Pineapple Thief

Over night you said
All kinds of things I'd wish I'd never read
We were all undone at speed
Eroding us and changing what we mean

You're taking us all for fools
Where're you taking us?

There lies nothing left to choose
Between an army who have nothing they care to lose
And there was me and you all along
It can't just be us left here clinging on

You're taking us all for fools
You're selling us down the river
And you know where it leads
We've been here before
No it's not a game anymore

We were all undone at speed

You're taking us all for fools
You're selling us down the river
And you know where it leads
We've been here before
No it's not a game anymore

No it's not a game anymore
No it's not a game anymore
No it's not a game anymore
No it's not a game anymore
No it's not a game anymore

You're taking us all for fools
You're selling us down the river
And you know where it leads
We've been here before
No it's not a game anymore
