

Capital F

The Pink Spiders

I said I'm gonna hit the jukes
I'm tryin' to keep it on the level
If I was putting up my dukes
It's only 'cause I met the devil

There but for the grace of god
I escaped the life I chased down
Between the loser screws
It's pretty cool you kept me around

I came in like a cannonball
So unaware what I was facing
I hid behind the plastic shades
So no one knew that I was wasted

Gathered in the turbulence
I could love you from the waist down
And gain your confidence
So you'd be ready for the let down

Gimme that capital F and capital U
And capital N, you know what to do
And in case you wanna argue
It's capital F and capital U

There but for the grace of god
I escaped the life I chased down
Between the loser screws
It's pretty cool you kept me around

Gimme that capital F and capital U
And capital N, you know what to do
And in case you wanna argue
It's capital F and capital U

Capital F and capital U
And capital N, you know what to do
And in case you wanna argue
It's capital F and capital U
