The Pink Spiders

I'm a stranger in this clean-up town
I could show you all around, I could take you by the dozer
I was born behind the Firestone
Got a place all of my own that I'd really like to show ya

Gimme your love, gimme your love now, I need it
Gimme your love, gimme your love now, I need it
Physical touch, physical touch and I need it
I don't need much, but just a touch and again
If a light is in your eye
If a light is in your eye
And the sun is in the sky
Gimme your devotion

We were jokin' over bridges burned right before the city turned
Candy flippin' in the ocean
I don't even wanna break curfew with nobody else but you
When we take our magic potion

Gimme your love, gimme your love now, I need it
Gimme your love, gimme your love now, I need it
Physical touch, physical touch and I need it
I don't need much, but just a touch and again
If a light is in your eye
If a light is in your eye
And the sun is in the sky
Gimme your devotion

G-G-G-Gimme your devotion
Gimme your devotion

Gimme your love, gimme your love now, I need it
Gimme your love, gimme your love now, I need it
Physical touch, physical touch and I need it
I don't need much, but just a touch and again
Gimme your love, gimme your love now, I need it
Gimme your love, gimme your love now, I need it
Physical touch, physical touch and I need it
I don't need much, but just a touch and again
If a light is in your eye
If a light is in your eye
And the sun is in the sky
Gimme your devotion

G-G-G-Gimme your devotion
