

I Always Planned to Stay

The Pipettes

I always planned to stay
As long as you needed me
It's nothing less
Than what you expected

And now that you've moved away
And you've had another chance
I wish you all the best
And hope you mend your heart

Everything is gone but I don't
Want to try on to be solo
Everything is gone but I don't
Want to be here on my own, no

I always planned to stay
As long as you needed me
It's nothing less
Than what was expected

And now that you've moved away
We have another chance
I wish you all the best
And hope you mend your heart

Everything is gone but I don't
Want to try on to be solo
Everything is gone but I don't
Want to be here on my own, no

Look at us now
It's everything we want it to be
And I don't know how
We managed to make it but we did, my baby

Everything is gone but I don't
Want to try on to be solo
Everything is gone but I don't
Want to be here on my own, no

Everything is gone but I don't
Want to try on to be solo
Everything is gone but I don't
Want to be here on my own, no

Look at us now
It's everything we want it to be
And I don't know how
We managed to make it but we did, my baby
