

Viva Democracy

The Poodles

I don't believe in the money you say that you make
I don't believe in the happiness you say it brings
I'll never sympathize with the promises you break
And how the people supporting you don't mean a thing

Oh, the message you send is clear
Tell me what it takes to open up your eyes

No one is strong on their own
Look around you and you'll see
No one survives all alone
Cause we're all dependent
Know your history...Viva democracy!

I can never agree with the values you push
All the statements that you constantly fake
The things you jeopardize and decisions you rush
Like all of the stupid and false assumptions you make

Oh, the message you send is clear
Tell me what it takes to open up your eyes

No one is strong on their own
Look around you and you'll see
No one survives all alone
Cause we're all dependent
Know your history...Viva democracy!

We didn't come this far, so fast
Without a sacrifice
Now let's earn our liberty!
