

## Daily Mutilation

The Posies

We were just a pair of dice when I let you in  
And the numbers were aligned as the wheel grinned  
And the center of your eyes was a lucid lake  
And the little trust you gave was a big mistake

It's a daily mutilation as I walk along with you  
A daily mutilation and a bludgeoning review  
A daily mutilation and I'd like to see it through  
But a daily mutilation  
A daily mutilation just won't do

And the water doesn't work and the pipes are iced  
And the bread is full of holes and it's never sliced  
And your kindly downward stares live in a weather vane  
And the wind would like to know who's going to cut the vein

It's a daily mutilation as I walk along with you  
A daily mutilation and a bludgeoning review

Extra, extra, bleed all about it  
Bleed all about it
