

Dope

The Power Station

I can take you all right now
Kick the shit tomorrow too
I know what you make me say
I know what you make me do
Tired of being pushed around
By a chemical like you
Doesn't matter who you use
Dope is what dopers do

Pick 'em up and throw 'em down
You're a source of revenue
Pulverise and snort you up
Turn all kinds of shades of blue
I could give you all my dough
I could lose my life to you
Swallow, shoot, inhale or chew
Dope is what dopers do

I could use another hit
Anything you've got'll do
I can take you unrefined
I can take you cut in two

You give me a one track mind
Maybe you could make that two
I seem to be out of cash
Let's make that an i.o.u.
Vanish in a cloud of smoke
Disappear up a tube
Dopin' is a dopers does
Dopin' is what dopers do
