

## Scared

The Power Station

Scared

You never said you'd love me like you do  
You said you'd never hurt me like you do  
You can't seem to decide  
If you're in love with me

Scared

You say you're losing your identity  
You say you've sacrificed your freedom to me  
You won't commit to me  
Till I submit to you

Scared

You're not the only one who feels confused  
Sooner or later you will have to choose  
I can't make up my mind  
Where I will draw the line

Scared

She loves you she loves you not  
She's only scared  
Forget me forget me not  
You're only scared
