                                  Emi
   I am wandering right through existance
   C                          Ami
   With no purpose and no drive
                                 Emi
   'cause in the end we're all alive, alive

   C

   Ami
   Waiting for the day to shake

   Emi
R: To all of you who've wronged me
   C
   I am. I am a zombie
   Am                            B
   Again, again you want me to fall on my head
   Em
   I am, I am, I am a zombie
   C
   How low, how low, how low will you push me
   Am                            B
   To go to go to go, before I lie, lie down dead

   C Am Em Em

2. Blow the smoke right off the tube
   Kiss my gentle burning bruise
   I'm lost in time
   To all the people left behind
   you are walking dumb and blind, blind

*: And two thousand years I've been awake
   Waiting for the day to shake

R: Dear all of you who've wronged me
   I am, I am a zombie
   Again, again you want me to fall on my head
   I am, I am, I am a zombie
   How low, how low, how low will you push me
   To go, to go, to go, before I lie, lie down dead
   Oh dead, Oh dead, Oh dead (C Am Em Em x4)

   To all of you who've wronged me
   I am, I am a zombie
   Again, again you want me to fall on my head
   I am I am I am a zombie
   How low, how low, how low will you push me
                                                  Emi
   To go, to go, to go, before I lie down dead
