

More Than Love

The Prize Fighter Inferno

It's okay to be afraid
Don't worry about tomorrow, let's play today
Whatever I may have caused you, it should go away
'Cause in this life, there's no more separate ways

See, mama, I think it's way too soon
To abandon this world just to break the mold
Oh, I'm so scared with all we've got to lose
'Cause, lady, I can't do this without you
And, oh oh woah

'Cause when the street's on fire, don't you call my bluff
'Cause I'm comin', it's better, my darling, the two of us
And when these days get cold and these nights are rough
I'll be your fire, baby, maybe it's more than love

Tell me something, tell me something true
When there's nothing out there left to look forward to
Oh, it won't matter much when you're pulling through
'Cause I think my time here's long over due
And, oh oh woah

'Cause when the street's on fire, don't you call my bluff
'Cause I'm comin', it's better, my darling, the two of us
And when these days get cold and these nights are rough
I'll be your fire, baby, maybe it's more than love

'Cause when the street's on fire, don't you call my bluff
'Cause I'm comin', it's better, my darling, the two of us
And when these days get cold and these nights are rough
I'll be your fire, baby, maybe it's more than love

'Cause when the days get cold and these nights are rough
I'll be your fire, baby, maybe it's more than love
'Cause when the days get cold and these nights are rough
I'll be your fire, baby, maybe it's more than love
I'll be your fire, baby, maybe it's more than love
