

We Live Forever

The Prodigy

We're here, it's now
We live forever
The time has come
We live forever
We're here, it's now
We live forever
The time has come
We live forever
We, we, we
I am the oven your brains I wanna heat up
Mega, supersonic degrees
Fire, turn the flame higher
Turn the flame higher
I am the oven your brains I wanna heat up
Mega, supersonic degrees
Fire, turn the flame higher
Turn the flame higher
We're here, it's now
We live forever
The time has come
We live forever
Now
We live forever
Now
We live forever
I am the oven your brains I wanna heat up
Mega, supersonic degrees
Fire, turn the flame higher
Turn the flame higher
I am the oven your brains I wanna heat up
Mega, supersonic degrees
Fire, turn the flame higher
Turn the flame higher
Forever, forever, forever, forever, forever...
Turn the flame higher
Turn the flame higher
Turn the flame higher
Turn the flame higher
We're here, it's now
We live forever
The time has come
We live forever
We're here, it's now
We live forever
The time has come
We live forever
Now
We live forever
Now
We live forever
Turn the flame higher
Turn the flame higher
Turn the flame higher
Turn the flame higher
Now
Now
Now

Turn the flame higher
We live forever
Now
Turn the flame higher
We live forever
