

# Perversion

The Project Hate MCMXCIX

My scars will never heal  
Stigmata incomplete  
Before me you shall bleed  
Embrace my spoken words  
for I am The Serpent

I'm falling down into the very depth  
of His perversion  
Bleed Him out  
Tear it down, the ruination of His creation  
Bring death to every Man  
In the light I find  
As told, the truth revealed as lies  
In His death I find  
My carnal bliss, the end of times

Believe the sickness, the wrath within  
At the core of Sodom is where I am king  
Be my wickedness, become my wrath  
Give birth to Lucifer, the end at last  
As we all go down in flames

Watch Him go down in flames  
He who's of many names  
Biding my time, to rise through the fire  
I'll be reborn in denial

Be the venom inside us  
Speak mightily of He who scorned us  
Be the venom inside us  
Speak mightily of He who scorned us

Lead me to the path of revenge  
And I'll lead you to the path of sorrow

Why have I been raised in shame?  
I saved Her from herself

Mary...  
Your mother was the whore to end all whores  
Mary, forgotten and reborn, forever torn  
Mary, abomination born, forever forlorn  
Mary, the mother of all whores

Behold the whore  
My Whore of Filth  
Behold Her kingdom and her glory  
Deny Her race, the race of disgrace  
And see the bodies fall before me  
Defy the resurrection, deny the birth  
Destroy everything that they stand for  
Stand to my left, stand to my right  
Sacrifice

Last call  
Prepare His downfall  
I can taste the tears in His eyes

Last chance  
This is their last chance  
I will let them die in my arms

One, become one  
One...

We walk through fire  
Burn everything  
Erase your name through fire  
Be everything  
We will become one  
One...  
One...

Servant!  
I greet you the beauty of your light  
Spread the gospel of the burning paradise  
Believer! Redeemer! I bring upon you now  
The final salvation, the end of all times  
Servant!  
I greet you the beauty of your life  
Share your darkness, the beauty of your pride  
Servant! Servant! I bring upon you now  
The final redemption, the beauty of your death

I'm calling you  
I'm falling for you

Answer me!  
Bleed with me!  
Die with me!  
Become me!

Where are you?  
I can't see through your barriers of hatred  
Walk with me  
Be with me  
Through barriers of hatred  
Be with me  
Walk with me  
Through barriers of hatred

Finally I can see  
Through your barriers of hatred  
And perversion
