

# Weep

The Project Hate MCMXCIX

Here down we taste the angels' tears  
Here down where angels weep

It's getting late  
I should move on  
This is the darkest of all the nights  
I've seen before

So take my hand  
Your lips so cold  
This is the last farewell

Is it too late now  
as I lay down and weep  
For all saviors killed  
that died for me

Here down... The sun's gone, were all asleep  
Here down where angels weep

Whispers in the woods at night  
You look so pale  
I think I hear them now...  
The angels weep

You must have died long before  
The sun went away  
But please darling... weep again...

Now I'm here the last ever chance  
for a last... a last farewell  
Now I'm here for a last shimmering...  
for a last... a last farewell  
The angels weep

The angels...  
Is it too late now  
as I lay down and weep  
For all saviors killed  
that died for me...

The sun went down  
The lights go out  
She's cold...

The sun went down  
The lights go out  
So cold...
