

Make Me A Mixtape

The Promise Ring

You reminded me that I would never be twenty-two
Listening to the alarm waking up south of north avenue

My skin's going to wonder what
My skin is going to wonder what I'm doing now
My skin is going to wonder
My skin is going to wonder what I'm doing now

So write me a letter and tell me where you are
How to get there and how long
That it takes to tape me some songs

Make me a mixtape
Something old and something new
Something I said or that we did that reminds me of you
Make me a mixtape that makes me yours

My skin's going to wonder what
My skin is going to wonder what I'm doing now
My skin is going to wonder
My skin is going to wonder what I'm doing now

So write me a letter and tell me where you are
How to get there and how long
That it takes to tape me some songs

Make me a mixtape
Something old and something new
Something I said or that we did that reminds me of you
Make me a mixtape that makes me yours

Make me a mixtape don't leave out Husker Du
Put something on that The Cars did in 1982
Make me a mixtape that brings me closer to you
Make me a mixtape that brings me closer to you

Make me a mixtape don't leave out Husker Du
Put something on that The Cars did in 1982
Put on Duran Duran Duran Duran and U2
Make me a mixtape that brings me closer to you
