No Way Back

The Protomen

Look up at the sky, you can't see the stars, they've been gone
for ages
I can't even remember the way that it looked before the reign
This town had its angels, there's nothing but devils left
Trying to outrun a hurricane

If there's a way out of this, somebody tell me now
I know it's all gonna end but I swear I don't know how
You keep outrunning the past until it hunts you down
If there's a way out of this, somebody tell me

I know who you are and I've seen what you've done from up in yo
ur tower
The only difference between you and me is that I'm on the groun
d
You're playing it cool, your hand on the trigger
I think we both know how this turns out
C'mon!

If there's a way out of this, somebody tell me now
(There's no way back, we can't go back)
I know it's all gonna end but I swear I don't know how
(There's no way back, we can't go back)
You keep outrunning your past until it hunts you down
(There's no way back, we can't go back)
If there's a way out of this, somebody tell me

They took out a match and started the fire that lit up the city
And for miles and miles, all you could see were the flames
There's a storm blowing in and the heavens will open up
When the flood washes over me, God, I hope it can wash this blo
od from my hands

(Just come down)
Just come down
(If we walked on)
Maybe we'll get out of this alive!

There's no way back, we can't go back
There's no way back, we can't go back
There's no way back, we can't go back
If there's a way out of this, somebody tell me, somebody tell m
e, somebody tell me now
(There's no way back, we can't go back)
(There's no way back, we can't go back)
