

Don't Believe

The Psychedelic Furs

Money's got the medicine
You can't believe in anything
I wanted what I've never had
You get it then it's gone again

You wonder where the weather went
You're sucking on a cigarette
And hell here comes the rain again
And heaven isn't heaven sent

I don't believe
I don't believe you don't believe me
I don't believe
You don't believe it's true

Life is short and God is gold
And promises are bought and sold
And everything I never said
Comes crashing on my tiny head

Nothing down here's ever free
The same sun shines on you and me
And give me all your chemistry
And don't believe it honestly

I don't believe
I don't believe you don't believe me
I don't believe
You don't believe it's true

Money's got the medicine
You can't believe in anything
I wanted what I never had
You get it then it's gone again

Our life is short and God is gold
And promises are bought and sold
And everything I never said
Comes crashing on my tiny head

I don't believe
(You wonder where the weather went)
(You're sucking on a cigarette)
I don't believe you don't believe me
I don't believe
(And hell here comes the rain again)
(And heaven isn't heaven sent)
You don't believe it's true

I don't believe
(Life is short and God is gold)
(And promises are bought and sold)
I don't believe you don't believe me
I don't believe
(And everything I never said)
(Comes crashing on my tiny head)
You don't believe it's true

I don't believe
(Money's got the medicine)
(You can't believe in anything)
I don't believe you don't believe me
(I wanted what I never had)
(You get it then it's gone again)
I don't believe
(You wonder where the weather went)
(You're sucking on a cigarette)
You don't believe it's true
(And hell here comes the rain again)
(And heaven isn't heaven sent)

I don't believe
I don't believe you don't believe me
I don't believe
