

# Wrong Train

The Psychedelic Furs

I took the wrong train  
Ate all the wrong pills  
I took a cell phone  
To call my voice mail

I took the wrong train  
Got off the wrong town  
They beat their kids up  
Somewhere suburban

And I'm never coming home again  
We can't agree on anything  
And where the hell are all my friends  
I need you right now

I ran the wrong light  
Got in a car crash  
A wife that hates me  
So does her boyfriend

And I'm never coming home again  
We can't agree on anything  
And where the hell are all my friends  
I need you right now

I took the wrong train  
Got off the wrong town  
They beat their kids up  
Somewhere suburban

And I'm never coming home again  
We can't agree on anything  
And where the hell are all my friends  
I need you right now

Tell me things you used to do  
I'll pretend you wanted to  
We wear these little things away  
In the end there's nothing left to say
