

Dysfunctional

The Psycho Realm

They say my function's interrupted
By alcoholic consumption
Hennesey or Tennessee
Whiskey hunting for something more potent
For getting disorted when I'm recording
It's important my sorted
Thoughts ain't locked up in something dormant
Don't it
I don't let dope
Get the best of me so it's strict
My habits and vices
Are what turn me into a sick poet
The good thing is I know it, control it
I ride snake to the side where minds are constantly stolen
Holding your thoughts so in a trance
You go in advance
Seems slow and enhanced
'til the roach dies slow in your hands
We're throwing these raps
While sporting the mask taking blast
I just wanted to thank the homeboys
Who sold me this bag
He showed me this shwag but
I went for the kush kill
One hit quit you go to the sick so sit still
Eat pills like colonopis
Slow you down when you pop 'em in
Welcome to my world of dysfunction,
Won't you come on in?

Pass me the hennesey
These people telling me
Drink so much whiskey
They call me Sick Jack from Tennessee
We're getting stoned again
Pop a colonopin
Welcome to my world of dysfunction,
Won't you come on in?
In all the places that I've been
Welcome to my world of dysfunction,
Won't you come on in?
(Sick Jacken)
Psychology's root word
Inked above my bird
My belly telling everyone
That my brain is disturbed
You may prefer being sober
To seeing a blur
Fire water gets me faded
Cause my vocals to slur
I know you heard,
Word travels fast like cash in the 'burbs
Street talk and they
Start up a whirlwind of rumors
Who knows who burns?
Who cares of words and stares
It doesn't matter anyway

'cause we're all fucked up in here
Dysfunctional living,
Drug driven parties with women
We're spiking and giving
Just to get 'em under the linen
We're crushing and swimming,
River flowing down while I'm in 'em
But don't get whipped just
Remember Yoko Ono and Lennon
We are dysfunctional

Pass me the henneseey
These people telling me
Drink so much whiskey
They call me Sick Jack from Tennessee
We're getting stoned
Again pop a colonopin
Welcome to my world of dysfunction,
Won't you come on in?
