SOUL SACRIFICE

(J.Gonzalez)

(Jacken)

Inside your brain is where your thoughts train  
But your body holds the soul that controls the whole  
frame

Spirits in the flesh indetified by a name  
It's a tug of war up or down no middle range  
Heaven or hell some say the devil's here where we dwell  
The faithful drop to their knees at the toll of the  
bell

Praying, god won't you send help?  
we struggle to keep form trouble but end knee deep  
Hook:

Don't take my soul  
The devil's trying to take my mind and body  
But angels come and rescue me

Angelic

Demonic

I don't know where to go  
(Jacken)

You go in the way your heart bleeds  
But feed your brain bad seeds it quickly minsleads  
Prophecies foretell you will go to hell  
If you fail to embrace the faith, oh well  
Half of us are doomed already according to script  
'Cause Jesus died on the cross for us his blood dripped  
We sacrifice our whole life for dumb shit  
But what's after this what exists when breathless  
Death's bliss  
Hook:

Don't take my soul
