

Ghost Town

The Quakes

I'm on the move and I'm looking for gold
Trying not to think about the things I sold
I know I know but you gotta follow your dreams
Big city and you stake your claim
Nobody here even knows your name
So you go on attack
Cause there's no going back for you
You get the feeling no one's on your side

I don't wanna spend another night in this ghost town
There's people dancing but I don't hear a sound
I don't wanna spend another night in this ghost town
The streets are crowded but there aint no one around

Sitting here with nothing to do
I'd look out the window but there aint no view
I know I know still you gotta follow your dreams
Big city's gonna wear you down
Takes all day just to get around
So you go on the attack
Cause there's no going back for you
You get the feeling no one's on your side

I don't wanna spend another night in this ghost town
There's people dancing but I don't hear a sound
I don't wanna spend another night in this ghost town
The streets are crowded but there aint no one around

And it seems you're running out of time
Another chorus with a stupid rhyme
And you run away but you can't hide
You get the feeling no one's on your side

I don't wanna spend another night in this ghost town
There's people dancing but I don't hear a sound
I don't wanna spend another night in this ghost town
The streets are crowded but there aint no one around

The streets are crowded but there aint no one around
The streets are crowded but there aint no one around
