

This Night

The Quakes

There's something in the air tonight
I get a feeling's just not right
Oh I can see that this would be an evil trip for me
Release the thoughts that haunt you
And set yourself free

I'm seeing things that just would blind me in the past
Why does it seems it's so that the best things never last
I can't gather thoughts from my brain to the pain
It's not a simple case of away, hey, hey, hey

This night will never end, hey, hey, hey
This night will never end

I'm seeing things that just would blind me in the past
Why does it seems it's so that the best things never last
I can't gather thoughts from my brain to the pain
It's not a simple case of away, hey, hey, hey

This night will never end, hey, hey, hey
This night will never end
It just goes on and on and on and on, hey, hey, hey
This night will never end, hey, hey, hey
This night will never end, hey, hey, hey
