

Back to the Basement

The Queers

Most girls at school are only a fix
I'm bummed out and i'm sick of this shit
Used to be ever band had balls
Now everybody's waiting at the mall
What happened to Black Flag?
Come on let's go back down
I swear I'm going mental, crazy
But I have the solution in my basement back at home

So come along with me
Back to the basement
Come back to the basement with me
Back to the basement
Come on back to the basement with me

Let's go hang with the kids on the block
The Overtones when I know were on top
Teenage kicks that was in your head

What happened to Black Flag?
Come on let's go back down
The scene is all worsening
Losers...
The guys all look like girls
They got nothing that I need

So come along with me
Back to the basement
Come back to the basement with me
Back to the basement
Come on back to the basement with me

Get some weed...
What's a guy to do?
All I need is the Ramones
No one's open I don't feel alone
When I got The Undertones
What happened to Black Flag?
I swear I'm going mental, crazy
But I have the solution in my basement back at home

So come along with me
Back to the basement
Come back to the basement with me
Back to the basement
Come on back to the basement with me
