

Everyday Girl

The Queers

If you start
That you wonder I am just around
I will give you all the jewels to you, girl I love
You told me to wonder...

Just say yes and you will make my dreams come true
Listen girl, don't you hide all that fear inside
Let your heart open up and an let me to you

You don't like to be lonely
I know just what you are going through
Just say yes and your dreams will come true

There's no end to the love I have for you
It's forever and ever yes it's true
Look deep into the soul of mine
And you'll know what I mean

Let's forget all the hurt the world can do
Hold my hand and I know we'll start to be
Anyway that you want me
Everyday girl

There is nothing I need to explain to you
Time stands still and never moves
All for you

You don't like to be lonely
I know just what you are going through
Just say yes and your dreams will come true

There's no end to the love I have for you
Its forever and ever yes it's true
Look into my soul of mine
You'll know what I mean

Let's forget all the hurt the world can do
Hold my hand and I know we'll start to be
Anyway that you want me
Everyday girl

Anyway that you want me
Everyday girl

Anyway that you want me
Everyday girl
