I Can't Get Over You

The Queers

Blue skies, turning into gray since you went away nothing's the same
Time flies, and I realize what I thought was love was just a game
Passing by the places where you used to be
What I wouldn't give to have you here with me

I know I'm stupid and I know you're gone
I know a lot but I can't get over you

Sometimes I think I lost my mind wishing myself back to yesterday
You said you'd wished that I was dead, I know I'd be better off that way
But nothing's lasts forever, yeah I know it's true
Still I can't believe that we are really through

I know I'm stupid and I know you're gone
I know a lot but I can't get over you
