In the Grace of Your Love

The Rapture

In the grace of your love You don't turn me away In the grace of your love There is no other way

In the grace of your love Every day when I wake up In the grace of your love In the grace of your love

In the grace of your love I know we can find a way In the grace of your love We can find a brighter day

In the grace of your love Please don't turn me down In the grace of your love Oh don't push me around

In the grace of your love
I am scared and I'm sick
In the grace of your love
Please don't hurt me so quick

Heaven
Don't want you dead

In the grace of your love I see you shining inside In the grace of your love No one can ever die

In the grace of your love Every day when I wake up In the grace of your love In the grace of your love
