

# It Takes Time to Be a Man

## The Rapture

Well we're all getting bigger  
But it takes time to be a man  
And it's more than you figure  
Well take it slow and take my hand

And there's room at the mountaintop  
For everyone in God's plan  
So just trust in your brother  
Let me help you if I can

Oh yeah

I bet you can't get what you want  
Come on baby come on darling  
I bet you can't get what you need  
Come on sugar and try

And there's faith in the answer  
We all swear on this land  
And the birds they are singing  
From the place that we stand

Oh yeah

I bet you can't get what you want  
Come on baby come on darling  
I bet you can't get what you need  
Come on sugar and try

Well there's room in your heart now  
For excellence to take a stand  
And there's tears that need shedding  
It's all part of the plan

Oh yeah

I bet you can't get what you want  
Come on baby come on darling  
I bet you can't get what you need  
Come on sugar and try

Hallelujah hallelujah
