

# Look Around

The Rascals

Look around  
Look around  
See the wonderful world on the ground  
Look around  
Look around  
Everything is upside down

Bigotry, hate and fear  
Got ten million votes this year  
But law and order won  
Tune in to the royal scene  
Sex is Queen, King nicotine  
Rule in the land of the free

So look around  
Look around  
Maybe then you'll understand  
Look around, you got to  
Look around  
Maybe you can lend a hand

Violence on the TV screen  
Guns and Ammo magazine  
Painting pretty pictures for you  
"Hello"'s a word for telephones  
Bigger locks on smaller homes  
Panthers and pussycats, too

Uh huh, look around  
Look around  
How much longer can it really go on?  
Look around, look, look  
Look around  
Wake up, put your head back on

It seems there is nothing to bring us together  
To believe in with all of your heart  
We've all got that something that's deep down inside of us  
Love's not a dirty word  
That's just the way it's heard  
Let me prove it to you

Look around  
Look around  
In all the world's cities and towns  
Look around  
Look around  
The old walls are tumbling down  
There's a new way of living to be found  
Every flower, each tree, and each sound  
Tells you 'bout the love that's around  
And you can find it  
Look around  
It's down inside  
Look around
