

Of Course

The Rascals

Got me thinking you're cheating on me (hey hey hey)
You've been talking with another man (hey hey hey)
You could run around, now, baby
Of course you can, my baby
I guess you can

See you when you're walking by, my love (hey hey hey)
You and him just holding hands (hey hey hey)
Ask me if I'm hurting, baby (are you hurting?)
Of course I am
You know I am

Baby, I never felt like this before
Mm, I never thought that I'd have you hurt me
Treat me badly, and then desert me
Goes to show just how life can be

You can't tell me no stories now (hey hey hey)
They wouldn't sound so good (hey hey hey)
Wonder should you call me, baby (should you call me?)
Of course you should, my baby
You know you should, oh oh

Mm, I never thought that I'd have you hurt me
Goes to show just how life can be

You can't tell me no stories now (hey hey hey)
They wouldn't sound so good (hey hey hey)
I wonder should you call me, baby (should you call me?)
Of course you should, my baby
You know you should, my baby
Of course you should, no oh
Of course you should
