

## Ready for Love

The Rascals

My heart was on a stormy sea  
Tossin' and turnin' like a leaf on winds of desire for you  
I had to reach your distant shore  
Take you inside and keep you and hold you and love you  
Forever more

That was the springtime of the tide  
Sandshells fall and washed it all aside

I'm a little bit older now, little bit wiser  
When the wind calls I'll be ready, oh ready for love

I'm tired of chasin' shadows  
I'm gonna turn me around and watch'em come after me  
'Cause I feel asleep and wisdom spoke  
He said I'll tell you a secret like life this too will pass

So you see my friend, I'll just wait  
Leave my love life up to the hand of fate

I'm a little bit older now, little bit wiser now  
When my heart calls, I'll be ready, I'm ready for love

So you see my friend, I'll just wait  
Leave my love life up to the hand of fate

I'm a little bit older now, little bit wiser now
