# Let's Pretend

**The Raspberries**

I can't sleep nights
Wishing you were here beside me
Can't help feeling
That's the way it ought to be
You know we could run (run, run) away
But I couldn't bear
To hear the things they'd say, oh no
Baby, let's pretend that tonight could live forever
If we close our eyes and believe it might come true
Baby, let's pretend we could always [1,4: be 2,3: live]
together
But for now just let me spend the night with you
Somehow, someday
Things are gonna be so different
Don't cry, someway
I promise it'll be allright
So now that we're all alone
I couldn't bear
To leave to take you home, oh no
So take me now
My love can't wait
We're almost there now, darlin', darlin'
Hold me (hold me), hold me (hold me)
Ho-oh-old me
