

Salem's Fate

The Raven Age

In the time of the puritan
A village controlled by fear
Like a sickness it spread through everyone
On Salem darkness would fall
The tales of witches told
Haunting the minds of the young
They weren't to know what's right from wrong
If god wills it thy will be done...
If god wills it thy will be done...

This fear of the unknown captures our minds
Our faith is with god he decides

Which evil is this my dear afflicting your soul
Just call out the name I must know

Rest assured
No devil's night
I'll see them condemned to die
We'll watch the life leave their eyes

Another accusation thy will be done
Upon gallows hill they'll be hung
To cleanse this village of evil answer to me
I'm the chosen one you will see

Rest assured
No devil's night
I'll see them condemned to die
We'll watch the life leave their eyes

Through the night I hear their cries
I picture flesh and fire
You can't take me
I'm not to blame
It's all to entertain

I fear not witches and ghosts
Puritan blood surges through my veins under oath
But in this perfect world sometimes darkness falls
And everyone should be afraid

Rest assured
No devil's night
I'll see them condemned to die
We'll watch the life leave their eyes

Through the night I hear their cries
I picture flesh and fire
You can't take me
I'm not to blame
It's all to entertain
