Be My Sunshine

The Raveonettes

Come little baby be me sunshine, come little baby be my sunshine

Come little baby do that thing, you do so good it always makes me scream $\$

Yeah, come little baby be my sunshine now

Come little honey be me sunshine, come little honey be my sunshine

Come little honey stay my baby, give it all to me you know I want it so

Yeah, everytime I see you I just can't go home Come little baby be me sunshine, come little baby be my sunshine

Come little baby scare me now and tell me 'bout the things you've done with others too

Yeah, give it all to me I want to try them too

Come little baby be me sunshine, come little baby be my sunshine

Come little baby do that thing, you do so good it always makes me scream

Yeah, come little baby be my sunshine now Yeah, come little baby be my sunshine now
