

Get me on a downer  
Don't you feel just like her?  
The world is all yours to take  
Come and get beside her  
Just pretend you like her  
This love is all yours to fake

I tend to harden up when our love is set to go  
I wanna give it up for someone I don't know

Think you better like her  
Don't you feel you want her?  
This love is all set to go  
Don't you just befriend her  
Tell her that you need her  
Don't be scared she ain't no ghost

I tend to harden up when our love is set to go  
I wanna give it up for someone I don't know

Feel I got it coming  
Better start hunting  
Her rainy eyes tell it all  
For she starts her gunning  
100 miles and running  
Oh, god I hate you alcohol

I tend to harden up when our love is set to go  
I wanna give it up for someone I don't know
