

Sun Goes Down

The Raveonettes

Now, I know who's fall out you
Start to feel the streets at night
Now, I know is clear for you
Now, I made you better, no
Satan's love each and more fun
Gas solution is on the run, oh, yeah

Look out what I did to you
I can't have it all for sure
Many times has set for words
Waste it all and accept it
Now, it seems something's wrong
Chasing me you wanna know
And banging in the street

Lovers laugh and lovers cry
Love is bad and love is sad
Love steal the forward
To makes to sink you 'till your done
Since I sink my life for you
Cannot think but think of you
Used to shit and come along
Now, this tough disgusting show
Now, this tough disgusting show
Now, this tough disgusting show
