

Being Afraid

The Ready Set

Swimming in the undertow
While the world just seems to go on
Void of emotion
Dear blue sky, let me in
Treat me like your closest friend
And we'll rewrite the ending, yeah

I've been stuck in my mind
Losing sleep, losing time
Building a great big something
Out of a whole lot of nothing

They say I've gone insane
We all get carried away
Am I the only one
Who's chasing down the sun?
Cause I'm done being afraid
Yeah, yeah, I'm done being afraid

Thrashed up by words again
While your verbal teeth sink in
Into my skin
I just want this one to count
Then I'll figure my shit out
Oh whoa

I've been stuck in my mind
Losing sleep, losing time
Building a great big something
Out of a whole lot of nothing

They say I've gone insane
We all get carried away
Am I the only one
Who's chasing down the sun?
Cause I'm done being afraid
Yeah, yeah, I'm done being afraid

I've been stuck in my mind
And I've been losing sleep and losing time

Ooh, I want to tear apart my brain
We all get carried away

They say I've gone insane
We all get carried away
Am I the only one
Who's chasing down the sun?
Cause I'm done being afraid
Yeah, yeah, I'm done being afraid
Yeah, yeah, (done being afraid) I'm done being afraid
