

Cloudy Heart

The Ready Set

Will I feel no pain?
Ultra violet skies
Pull the shade away
Sink into your eyes

I'll let you in
This cloudy heart
Show me how this ends
Let me fall apart
This cloudy heart
Show me how this ends
Let me fall apart, fall apart
Into your arms
Let me fall apart
Into your arms

I shift in different shapes
And if I wanted to feel nothing, then I would
But I see you from all sides
And I'm caught in a new light
So tell me what's after that

Will I feel no pain?
Ultra violet skies
Pull the shade away
Sink into your eyes

I'll let you in
This cloudy heart
Show me how this ends
Let me fall apart
I'll let you in
This cloudy heart
Show me how this ends
Let me fall apart, fall apart
