

## Drain Notes

## The Ready Set

I wanna know how to feel  
Are you ready to love me  
Are you ready to want me, girl

She's got a way with those  
She's got a way with those eyes  
She can see right through and  
I'm gonna want all of you

Whiter tha-than a ghost  
Whiter tha-than a ghost  
I'm gonna want all of  
I-I'm gonna want all you, all of you

Each night starts with a quick glance  
Each night's ruling my heart  
And this whole time I haven't been breathing  
Now it's about time, are you ready to start

Feelings go through  
I wanna be the witness to your locked-door quickness  
Think about everything you're telling me  
Cause life is not true  
What's the meaning of the minor notes  
Are my words gonna make you choke

She said it's only for one night  
And everything's alright  
She's working magic like it's meant to be  
These pyromantics are so bright  
She's saving nothing for next time  
She's gonna run me down

Girl amaze me  
You drive me crazy  
Break my world in two  
And I will wake up  
Shaking on the bedpost  
Whiter tha-than a ghost

Once upon a tragic time  
There was a boy who lost his mind  
And fell into a pretty pretty little girl  
And he never got a chance to learn

Oh oh  
These nights won't stop  
Oh oh  
These nights won't not

And I hated the way  
Wouldn't get the time of day

She said it's only for one night  
And everything's alright  
She's working magic like it's meant to be  
These pyromantics are so bright

She's saving nothing for next time  
She's gonna run me down

Girl amaze me  
You drive me crazy  
Break my world in two  
And I will wake up  
Shaking on the bedpost  
Whiter tha-than a ghost

Kind of funny how it felt so right  
Kind of funny how it changed my life  
Yeah yeah, If only I could take it back  
Take it back, take it back

Kind of funny how it felt so right  
Kind of funny how it changed my life  
I could tell it to you a hundred times  
Of the tragic tale of the boy who lost his mind

She said it's only for one night  
And everything's alright  
She's working magic like it's meant to be  
These pyromantics are so bright  
She's saving nothing for next time  
She's gonna run me down

Girl amaze me  
You drive me crazy  
Break my world in two  
And I will wake up  
Shaking on the bedpost  
Whiter tha-than a ghost

Whiter tha-than a ghost [7x]  
(I'm gonna want all of you, I-I'm gonna want all of you, all of you)
