

Feeling Something

The Ready Set

I could love you
Do what you want with that
Why should we act all hard to get?
If I touch you
Would you be cool with that?
Don't wanna leave here with regrets, no

Oh yeah, I'm really feeling something for you
I said oh yeah, I'm really feeling something for you
Just drop a little sign and I'll stay
Talk until the night becomes day
Oh yeah, I'm really feeling something for you
I'm really feeling something for you
Something for you

In a few hours the sun is gonna hurt like death
I know it from the whiskey on our breath
There's a wildflower pattern on your sheets falling off the bed
Follow the heart forget your head

Oh yeah, I'm really feeling something for you
I said oh yeah, I'm really feeling something for you
Just drop a little sign and I'll stay
Talk until the night becomes day
Oh yeah, I'm really feeling something for you
I'm really feeling something for you
Something for you

I don't want the night to end
I don't wanna be your friend
I want it all
I want it all
I want it all

Just drop a little sign and I'll stay
Talk until the night becomes day
Oh yeah, I'm really feeling something for you
I'm really feeling something for you
Oh yeah, I'm really feeling something for you
I said oh yeah, I'm really feeling something for you
Just drop a little sun and I'll stay
Talk until the night becomes day
Oh yeah, I'm really feeling something for you
I'm really feeling something for you
Something for you
