## The Ready Set

Ride, ride through the night  
Tell me what you been thinking of  
On the right side of me, trying to be cool  
You're acting tough  
You're a killer and I knew that from the get go  
Make me feel like Imma die, yeah that's a KO  
Ride, ride through the night  
Tell me what you been thinking of  
Why you acting tough?

A different type  
That's you and I  
Poison only brings us back to life  
And in the dark that's who we are  
Love the way you never say goodbye just  
Slipping out the room like a ghost  
But you only put on half of your clothes  
I surrender baby, yeah Imma fold to you

Ride, ride through the night  
Tell me what you been thinking of  
On the right side of me, trying to be cool  
You're acting tough  
You're a killer and I knew that from the get go  
Make me feel like Imma die, yeah that's a KO  
Ride, ride through the night  
Tell me what you been thinking of  
Why you acting tough?

Ooo I can't escape  
I just want your chains around me  
Pulling me down  
Cause it feels like heaven when you give me hell  
I wanna lose myself, I think it's too late now

Ride, ride through the night  
Tell me what you been thinking of  
On the right side of me, trying to be cool  
You're acting tough  
You're a killer and I knew that from the get go  
Make me feel like Imma die, yeah that's a KO  
Ride, ride through the night  
Tell me what you been thinking of  
Why you acting tough?
