

Laugh It Off

The Ready Set

November, the biggest storm in ages, never let up
Now and then you cut my picture from pages
And hang it up

You said I never come around
It's been a year by now
And all I know is

I put you through hell and you just laugh it off, laugh it off
Time can only tell, I hope you laugh along
I hope you laugh along

I've been waiting on that shot you always say is near
I am exactly as you are, so you never have to fear
When I walk through hell, I swear I'll laugh it off

I never said
"Thank you for all that you gave me, I'm growing up"
I never been the kind to stand, hardly patient
But still you loved

You said I always made you proud
I never knew quite how, all I know is

I put you through hell and you just laugh it off, laugh it off
Time can only tell, I hope you laugh along
I hope you laugh along

I've been waiting on that shot you always say is near
I am exactly as you are, and you know I keep you near
I've been a hole inside your heart and it's becoming crystal clear
I am exactly who I am because you taught me not to fear
When I walk through hell, so I'll just laugh it off, hey

I put you through hell and you just laugh it off, laugh it off
Time can only tell, I hope you laugh along
I hope you laugh along

Still waiting on that shot you always say is near
I am exactly as you are, so you never have to fear
When I walk through hell, I swear I'll laugh it off
Laugh it off
