

More Than This

The Ready Set

Drinking cheap wine from paper cups
In your old apartment
Said a little too much when we got drunk
Could you feel the tension?

I could see it in the air
Like smoke, making it so hard to breathe
Heaven never felt so clear
As when you're right in front of me
Yeah, yeah

I wanna be more than this, oh
I got it bad for you
I'm thinking you're worth the risk, so
Tell me what I gotta do

We could stay high, we could lay low
I would do anything but let go
Give it all up
'Cause I just can't resist
I wanna be more than this
I wanna be more than this

Middle of the night I pick you up
'Cause he kept you waiting
You tell me that you're done looking for love
'Cause your heart can't take it

You say you're better off alone
I say you need somebody new
It's killing me to be this close
I'm right here in front of you

I wanna be more than this, oh
I got it bad for you
I'm thinking you're worth the risk, so
Tell me what I gotta do

We could stay high, we could lay low
I would do anything but let go
Give it all up
'Cause I just can't resist
I wanna be more than this
I wanna be more than this

I'm already the one you run to
So fall into my arms
After everything we've been through
There's so much left to start

I wanna be more than this, oh
I got it bad for you
I'm thinking you're worth the risk, so
Tell me what I gotta do

I wanna be more than this, oh
I got it bad for you

I'm thinking you're worth the risk, so
Tell me what I gotta do

We could stay high, we could lay low
I would do anything but let go
Give it all up
'Cause I just can't resist

I wanna be more than this [x3]

(I want so much more) [x2]

I wanna be more than this
